Investment Objective

The Company's investment objective is to compound Shareholder's capital at a higher rate of return than the FTSE All Share Total Return Index over the long term. The Company will seek to achieve a high rate of compound return over the long term by carefully selecting investments using a thorough and objective research process and paying a price which provides a material margin of safety against permanent loss of capital, but also a favourable range of outcomes. The Company will follow a high conviction investment strategy. The expertise and processes developed by the Investment Manager can be applied to all parts of the capital structure of a business, both private and publicly quoted. These positions could be represented by a minority stake, a control position combined with operational involvement, full ownership of a company, a joint venture, a loan or convertible instrument, a short position or any other instrument which allows the Company to access value.
